REPUBLIC SPECIAL

New Orleans, La., Nov. 29.-The winter meeting of the Crescent City Jockey Club was inaugurated this afternoon under very favorable circumstances. The weather was all that could be desired for the greatest of all outdoor sport. Fully 4,600 people were in attendance, and they witnessed a fine day's sport. Not a single favorite finished in front for the talent, and the books had things all their own way.

The piece de resistance was the Inaugur al Handicap, for all ages, at six furlongs and worth \$1,500. Ten of the best sprinters at the track accepted the issue, The Woods entry-May Beach and Money Muss-were made the favorites, at 8 to 5, and were heavily played at those figures. Outside of the Woods entry, the only other starter that was played to any extent was Sevoy. who had been burning up the track in his preliminary trials.

After a delay of over a quarter of an hour, a start was finally secured, and Alex was sent off in front, with a length the best of it, with the rest of the field strung out. Sevoy, the "good thing," went to the front at the half, and was never headed, winning, well in hand, by two lengths.

The real contest was for the place. Triaditza, Money Muss and Georgia finishing

noses apart, in the order named.

Billy Murry, Starter Fitzgerald's assistant on the metropolitan tracks, wield\_d
the flag, and did fairly well for a beginner.
He secured fair starts in all the events,
with the exception of the inaugural Handi-

The first race of the meeting was a purse affeir at a mile and a sixteenth. Eight affair at a mile and a sixteenth. Eight fairly good platers faced the starter, of which Eva Rice was made the favorite, being backed down from 3 to 2 at post time. Charlie O'Brien, the equal choice with John Halsey, went to the front in the first quarter and was never headed, winning easily by three lengths. Strangest, at a fancy price, managed to last long enough to sectire second money from Bonul, who to secure second money from Bonul, was

to secure second money from Bonul, was came from last place in the stretch, and would have been second in another jump. Eva Rice chused it up after running seven iuriongs and massed in the rack.

The second, a inve-furiong dash, brought out a cracking good bunch of youngs.ers. Hy Lo, who was neavily played by his stance and the poblic, was incelered with at the six furiongs, being knocked to his knees. The interference cost him the race, Gracious and Tomcum rought it out through the stretch, the son of saver Fox getting the versuce by a short neck.

The third race, at a mile and a quarter, was only a cake walk for Frangios, the second choice, who went to the front when ready and won as he pleased. Chotus Boy, the heavily played favorite, was never prominent, and misshed a disgraceful fifth. Chimon surprised every one by galioping home an easy winner in the last race of the day, with 30 to 1 against her chances. Sister Alice, another outsider, was the runner-up with Eight Belis, who was played for a killing in third place.

Speculation was lively, but the talent succeeded in picking only two winners. Magic Light won the hurdle race, beating Draughtsman, the favorite by three lengths. Self-Protection won the steeplechase casy by ten lengths ahead of Diver; Higbic, the favorite, finishing third.

The Washington Cup race went to First Whip, a second choice, who won by half a length ahead of Rochester, a rank outsider, the favorite, Knight of the Garter, who had been heavily played, coming in third, Knight of the Garter who had been heavily played, coming in third, Knight of the Garter led for a mile and three-quarters. over Hildreth's string, which had Gonfalon, Bangor and Vulcain.

There was only a flight delay at the post and Dwyer sent his field off to a very even break, with the exception of Lavator. The Fretter showed the way round the first turn, closely pressed by Vesuvian and Andrissa.

The leaders were setting a hot pace. The Fretter ied past the baif-mile pole by a half length, with Vesuvian, Andrissa, Eddie Jones and Specific well bunched, while Bangor ied the second bunch, Advance Guard and Lavator bringing up in the rear.

Vesuvian assumed the lead turning into the stretch. Bangor made a desperate effort to overhaul the leader, but the son of St. Andree and Hot Spring was not to be denied and won eleverly by a length and a half. Bangor was second. Andrissa heat Eddie Jones a nose for third place. The first mile was run in 136%, and the full distance in 1535.

Donater, Alee, Eva Moe, Plohn, Bernato were the other winners. Mounce, who ro do Vesuvian, is an Idaho boy of great promise as a jockey.

This happened every morning, and the fact that a different man was secure and no report was made.

It seems that the members of the "Grafters' Association" would meet at a given point in the building at certain intervals during the day, repair to the fileroom, where one of their number would be in charge of the "sideboard," give the proper signs and grips, enter and help themselves. The leader of the clan would give three mysterlous knocks on the fileroom door. Then two would be given softly from the inside.

When seen last night Commissioner Evans refused to divuige the names of any of the clerks involved. He said that all the facts in the case had been placed before him, and he would take whatever action he deemed proper. It is probable that one or two of the clerks will be discharged, while others will be suspended without pay for a month or two. Mr. Evans expressed deep regret that the affair had been made public.

#### LACEMAKERS CAN STAY.

Treasury Department Grants Appeal of Nottingham Immigrants.

Philadelphia, Pa., Nov. 29.-Probably as happy as any other twenty-five persons in Philadelphia are the Nottingham lacemakers and their families, who have lived in dread of being sent back to England ever since the day of their landing at this port from the American Line steamship Waesland, two weeks before. The first news that the order for their deportation had been rescinded by Assistant Secretary of the Treasury Taylor, to whom the ap peal of the lacemakers from the decision of the local United States immigration officials had been referred, was learned by the immigrants from the columns of a morning paper.

"It is probable that the opinion of the

Ira J. Williams of the law firm of Simpson & Brown, who, with Samuel W. A Washington dispatch said that Commissioner General of Immigration Powderly had written to Commissioner Rodgers announcing the reschiding of the order of deportation.

It was learned yesterday that Doctor Dowic, having secred the admission of his first batch of immigrants, proposes to bring over from England at least a dozen more skilled weavers, who will doubtless be accompanied by their families. The evidence submitted by him to Secretary Gage shows conclusively that he has contracted for machinery abroad that will cost, with incident expenses connected therewith, \$1.00,000; that the kind of lace he proposes to manufacture is not manufactured in this country; that he proposes to do all from the beginning to the end in the manufacture of this textile industry; that last year \$18.00,000 worth of lace was imported here and that only I per cent of the amount of lace used in this country is manufactured here.

Transcontinental Passenger Associa-tion Will Pass on Them To-Day. The Transcontinental Passenger Association will hold a meeting to-day in Chicago and hear the report of the Committee on Epworth League Rates for the biennial Epworth League Rates for the blennial meeting to be held in San Francisco next July. At the meeting recently held in St. Louis it was virtually agreed to make a rate of \$45 from Missouri River points. \$47.50 from St. Louis, and \$50 from Chicago, but there was a wrangle over the conditio is of sales, return limits and division of rates, which resulted in a deadlock. Since then the Epworth League officials have given an ultimatum to the caliroads, stating that if the Epworth League officials have given an ultimatum to the califonds, stating that if any higher rate than \$59 from Chicago and return is made, the association will hold the meeting in some central city of the West. Just what effect this will have on the Chicago meeting remains to be seen. It is also expected that the extension of interchangeable mileage credentials into transmissouri territory will be taken up today at the meeting and some definite conclusion reached. A number of passenger traffic agents left \$1. Louis last night for Chicago to attend the meeting.

Time Change on Illinois Central. Time Change on Illinois Central.

The fall changes in the passenger train schedule of the Illinois Central will be be made on Sunday. December 2. The only one that affects St. Louis will be the change in leaving time of the daylight special, which at present leaves St. Louis at 12:39 p. m. and arrives in Chicago at 8:30 p. m. On and after December 2 the leaving time from St. Louis will be 11:39 a. m., and arrival time at Chicago 7:30 p. m. Net Earnings Compared. Net Earnings Compared.

The net earnings of the Union Pacific for the year ending June 30, 1900, were 41.5 percent of the gross earnings, those of the Santa Fe 40.47 per cent of the gross earnings, while the net earnings of the New York Central were 37.50 per cent of the gross earnings. From this statement it will be seen that the Union Pacific and Santa Fe show a phenomenal percentage of net earnings, the Union Pacific 5 percent and the Santa Fe 4 per cent better than the New York Central. Traffic conditions and the nature of business of these Western roads gave them an advantage, and the fact remains that they are being economically and carefully operated.

E. H. Shauffler's Appointment. E. H. Shauffler's Appointment.

REPUBLIC SPECIAL.

Quincy, Hl., Nov. 29.—An order issued from the office of General Marager Erimson of the Omaha, Kansas City and Eastern lines, reads: "Mr. E. H. Shaufler is hereby appointed freight traffic manager of the above lines, with office at Kansas City, Mo. The office of assisant general manager is abolished. The resignation of Mr. Charles E. Gibbs as general freight agent is accepted, effective December 1. Not for Basing Purposes.

The Western Passenger Association took a vote by "wire" on the proposition to use the \$15 excursion rate to Galveston and Houston on December II, for basing purposes. The rate was recently apnounced by Southwestern lines. Chairman MacLeod has wired all Western lines that that basing proposition had been negatived. May Straighten the Curves.

Although it is a tremendous task to contemplate, the engineers of the Pennsylvania Railroad have in view the straightaning of the main tracks at the famous Pack Saddle curves in the deep gorge of the Conemaugh. At this place there are three bad curves skirting a high embankment. It is almost eighty feet from the top of the rails to the water, and a wreck at such a place would be disastrous. In order to continue the four-track work

a great stone retaining wall will have to be constructed at Pack Saddle, and this will be built to provide for the elimination of the sharp curves.

No definite date for the beginning of this big job has been set, but it is understood that the preliminary plans have been prepared by the engineers of the Pittsburg division.

Milling in Transit Rates. The Texas Railroad Commission has issued rules governing milling in transit, as the result of the hearing October 15. The rule provides that grain can be milled on any line and reshipped to a point on any other to which through rates are applicable from first point of origin to final destination. A free back haul of sixty miles, and the payment at the rate of ½ cent per mile for other additional service, figuring distance in both directions, is not allowed, but a charge of ½ cent a ton per mile is permitted.

B. & O. and Jersey Central.

Some railroad presidents believe the only obstacle in the path of the Baltimore and Ohio in its efforts to acquire the Central of New Jersey is the question of price. In case the Baltimore and Ohio should acquire the Central of New Jersey it is said it would then use the main line of that system in shortening the route to Chicago. By doing so the Baltimore and Ohio would be able to shorten the distance 200 miles from New York to Chicago.

REPUBLIC SPECIAL.

New York. Nov. 29 .- Members of the Catholic Club tendered a reception to Archbishop Corrigan this evening, at which there was much quiet discussion of the possibility that the New York Archbishop might be raised to the Cardinalate. No reference was made to the subject in the speeches, but members of the club talked of through. the availiability of the Archbishop, and agreed that no better selection could be made. Pains will be taken, it is said, to communicate this sentiment to the Vatican through channels which are considered potential. The activity of Archbishop Corrigan's

friends is due to the oft-repeated story that if the two additional American Cardinals should be created, Archbishop Ireland will be honored jointly with Archbishop Cha-pelle. pelle.
In his address to-night, Archbishop Corrigan told the members of the Catholic Club that while in Rome the Holy Father Club that while in Rome the Holy Father had expressed the greatest interest in the affairs of the diocese of New York and had desired to have it known to the Catholics in the metropolis of the New World that he had ever their spiritual welfare at heart. The Archbishop then gave an interesting account of the miraculous liquefaction of the blood of St. Januarius during his visit in Naples.

REPUBLIC SPECIAL New York, Nov. 29.-Although in a very critical condition at his home, No. 260 West Fifty-second street, William Faversham, the well-known actor, was resting easily at midnight, and Doctors Phelps and Burke said that, although the case was the worst in their experience, they hoped to pull him

During the day Mr. Faversham's house was besieged by inquiring friends. Thomas Shea, member of the Empire Theater, who saw Mr. Faversham to-night, said that the actor was cheerful and had been able to frink a glass of whisky and water, which his physicians permitted him to take, and he felt that he would recover. Others, however, were not so sanguine, and thought the recovery of Mr. Faversbam was hardy possible, as blood poisoning had set in. After consultation to-night, the physicians announced that there was no pronounce change, and that there was no immediate danger, although Mr. Faversham's condi-

tion was extremely critical. An operation for appendicitis was per formed early last Sunday morning, the actor having been brought from Boston, where several physicians had diagnosed the ailment as a harmless trouble. When he his condition had become so critical that an operation had to be performed at once

to save the actor's life.

Although the operation was skillfully done, Mr. Faversham fell so low that for several hours grave fears were felt for his life. This morning he rallied, and, according to the doctors, is as well as could be expected after so dangerous an operation.

MR. FILLEY IN HAPPY VEIN. Ate Turkey and Talked at Good Government Club.

The St. Louis Good Government Club held Thanksgiving meeting last evening at its clubhouse, No. 2721 Pine street. It was intended to be a social affair, and such it was, so far as formal political discussion was concerned, but while the members sat around the banquet table and feasted on fine turkey, they discussed informally the recent city election.

In the evening about fifty members dropped in and partook of the lunch that had been prepared for the occasion. President Chauncey I. Filley was there and he was the center of attraction. Around him throughout the evening was gathered a coterie of members, and the Sage of Beaumont street was in his happiest vein.

"They all want to get in the band wagon now," he said, "and the applications for seats are so numerous that we are having trouble to make room. Oh, well, every dog will have his day." Then, with a significant wink of his eye, Mr. Filley added, "and some have two."

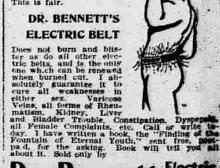

Among those present were: Chauncey I. Filley, L. J. Wall, Charles R. Graves, Henry Reinstedler, Robert E. McMath, Joseph B. Ambs, F. A. Burford, A. B. Greene, W. C. Nolte, Phil Schirmer, Harry Coudrey, Joseph S. Schuler and Doctor Joseph Whitaker.

A regular meeting of the club will be held next Thursday evening, at which the platform adopted for the spring campaign will be discussed and other questions relating to municipal politics. around the banquet table and feasted on
